**Comhairliúchán:**

Draft Limerick Development Plan 2022 - 2028

---

## Litir Chumhdaigh

Individuals hoping that we have all the tools available to us to drive Limerick forward

### Tuairimí:

#### **Inclusion of green roofs provision so that they may be used as part of planning requirements**

**Caibidil:** Volume 1 - Written Statement» Chapter 11: Development Management Standards

Limerick needs to be at the forefront of innovation when it comes to all section so society, be it sustainable transport, climate action, basic public relam, etc.

In order for this to happen, we must ensure that we have all the tools at our disposal to make these plans/ objectives a reality.

This may include measures that we may not use at present by can in the future.

Green Roofs are one of these measures which are important to have as part of our planning process.

Require green roofs for all roof areas for the following development types and encourage for all other types of development unless otherwise agreed with Limerick City and County Council's planning department:

- Apartment Developments
- Employment Developments
- Retail Developments
- Leisure Facilities
- Education Facilities

All roofs of 300m2 or greater to provide a minimum of 60% green roof coverage, unless exempted/ partially exempted.

Limerick needs to show the way forward and by having this tool in its arsenal, it shows that it is serious about ensuring our buildings are future-proofed and we take cmitigation measures to aid climate action seriously.

**Eochairfhocail:** green  
climate action, roofs, legislation
