Part 8 - South Circular Road to City Centre Active Travel Scheme

Strongly in favour of cycling route

Caibidil: Chapter 4 - Surveys and Additional Reports

Living in the Mungret area with my family. Would love this an option to cycle to the city center with the kids. A very popular idea in the area - not everyone will have submitted to the Council website in support of this but it is popular idea with young families and would bring increased footfall to the city center - the trip into town on a safe route would be an experience for the kids in and of itself
