Hi

I was hoping you could help me with a query I have regarding your county development plan. Do you have any provision in the county development plan for granting applications on rural land where the applicant has shown a requirement for a purpose built house due to special needs requirements. I understand that this a broad question but I am just looking for confirmation if you take special needs, such as an autistic child, under consideration.

If this is not the correct email to send this query to, I would appreciate it if you could forward this query to the relevant department.

Thanking you in advance

Robert
