Re: Review of the Adare Local Area Plan 2015 – 2021

I am making this submission with regard to the current zoning of my home and adjacent land at Cummeen, Adare that is located to the west of the junction of the N21 and R513. It was previously zoned residential. It is clearly not agricultural. Can you please explain why it was changed?

The purpose of this submission is to have the zoning changed from agricultural to residential/mixed use as appropriate to accurately reflect the land use.

Yours sincerely,

Ms Tracey Fitzgerald
