2. Did you engage with the first Public Consultation Period held in July 2020? Yes No

3. Do you own, rent or occupy a property within the scheme area being considered? Yes No

4. How do you view the proactive strategy for the River Galey outlined in the Emerging Preferred Scheme, which focuses on containment (flood wall and embankment defences) and integrates sediment management, debris control, pumping, and surface water management, especially considering the exclusion of dredging due to significant environmental concerns?

5. **What are your thoughts on the measures proposed for the Athea West and East streams in the Emerging Preferred Scheme, which aim to mitigate flood risk through strategic flow diversion and culvert enhancement, alongside the integration of debris control, pumping, and surface water management?**

Athea West Stream :

Athea East Stream:

6. **What are your impressions of the current proposal for the bandstand area of the Emerging Preferred Scheme? CSR Land Planning & Design Consultants have prepared a concept design for the bandstand area to boost public amenity value while integrating crucial flood relief elements, including the relocation of the existing bandstand, additional seating, landscaping and tree planting.**

Public Realm Enhancement:

7. Are there any aspects you believe could be adversely impacted by the construction of a flood relief scheme?
